Daily transactional vehicle sales — make, model, year, mileage, price, region, fuel, units sold.

Upload CSV to a Unity Catalog volume. Auto Loader streams it into a Bronze Delta table — raw and immutable.

Derive total_revenue, cost and profit_margin. Tier vehicles High / Medium / Low margin. Partition by year & region.

Push Gold extract to MS Excel. Pivot tables, what-if analysis and ad-hoc validation of regional sales trends.

Findings packaged into a PowerPoint for the Head of Sales — drivers, risks and strategic recommendations.

Standardise headers, strip currency symbols, export workbook to UTF-8 CSV ready for ingestion.

Spark SQL on Databricks: remove duplicates, cast prices to DECIMAL, fix nulls, parse dates → Silver Delta table.

Curated Gold Delta tables in Unity Catalog — governed, versioned, queryable by every downstream tool.

Live Databricks SQL connector. Slicers for region, fuel, year. KPI cards: revenue, margin, units — refreshed daily.
